COUNTY OF ALLEGHENY

RICH FITZGERALD
COUNTY EXECUTIVE

ALLEGHENY COUNTY FIRST RESPONDER/PUBLIC SAFETY AGENCIES

COVID-19 First Responder Resource

In the midst of the COVID-19 pandemic, Allegheny County's first priority must be our frontline staff, including first responders. As the pandemic grows locally and cases increase, first responders will encounter the virus more frequently. As a public health agency, it is our mandate to ensure that those individuals remain healthy and that we limit the need for them to be quarantined as a result of their duties. To further that mandate, the following process has been developed for frontline staff.

If you are a first responder and believe that you have been exposed to a case of COVID-19, please call 412-681-6669, and select option 3 to immediately speak with a nurse to get questions answered. If you are symptomatic, an appointment for specimen collection will be scheduled.
